NO DRIP, NO DROP

The standard in integrity

CREALISE 55

Made from hygienic polyethylene FDA approved for food packaging, all our CREALISE 55 caps adjust perfectly to 3, 5 or 6-gallon containers. Ask for them by name!

- Crealise 55 standard cap
- Crealise 55G with gasket
- Crealise 55GL with gasket and custom label

No-floater gasket

Say goodbye to old-style polyfoam liners that disintegrate. Then say hello to CREALISE 55's unique gasket and discover the benefits of a tight fit.

- Specially-designed O-ring gasket won't crumble and fray
- No more floaters to cloud water
- Leakproof from storage to transport and delivery
- Heated to the cap, this gasket will not shift position
- Gasket material is compatible with cap for recycling

Label this one special

With or without label?

You choose, we print.

- Limitless choice of colors
- A mere $\pm 1/32$ " tolerance from center of label

Revolutionary AQUASEQR®

Watertight and hygienic, our patented polyethylene AQUASEQR® cap is made to open only when installed on water coolers.

- Fits all 3, 5 or 6-gallon bottles
- One-part design leaves nothing to float in the water or to retrieve from bottle washers
- Heat seal label that won't stick to the returned bottle
- Leakproof O-ring gasket on all caps
- Fully recyclable
- Economical and secure, this patented cap costs less

Call us and save!

Show your colors

CREALISE 55 or AQUASEQR®, our caps are offered in 4 standard colors or any custom shade to suit your every corporate need.
