ICEBERG

Undersink Water Chiller

The Iceberg is our robust undersink water chiller, supplying cold water on demand from a decorative tap. This compressor driven unit is extremely quiet and easily fits inside your base cupboard, protected from mains water pressure surges with a shock arrestor and pressure reducing valve.

Created especially to accommodate small spaces conventional dispensers are too large for. Measuring only 12" x16.5" x12", the Iceberg's compact design will easily fit under most sinks. An impressive output capacity of 3 gallons per hour, the compressor driven chiller provides exceptional cooling performance. Simply connect the Iceberg to a countertop mounted faucet for cold water on demand.

Features

- #304 Stainless Steel cold water reservoir
- Copper evaporator
- Adjustable cold water thermostat
- Powder coated cold rolled steel casing
- * Sink mounted faucet not included

ICEBERG

Undersink Water Chiller

Performance & Specifications

General

Undersink pressure tank water cooler, with a stainless steel cold tank

Performance

Cold water outlet temperature 4-10°C (39.2-50°F)

Units designed for and tested in extreme temperatures for robust performance in all climates

Power Consumption

0.2 kw.hr/24hr

Cooler Cabinet

Powder-coated painted 18SWG cold rolled steel

Compressor

Hermetically sealed, PTC starter with overload protector
Refrigerant charge: 35.0g (1.2 oz) R134a (Ozone friendly)
(220~240VAC 50Hz) (100~115VAC 60Hz)

Dimensions & Freight Data

Product Dimensions

300mm deep x 410mm wide x 300mm high
(12" deep x 16.5" wide x 12" high)

Product Weight: 12.5kg (27.6 lb)

Product Boxed Dimension

330mm deep x 430mm wide x 340mm high
(13" deep x 16.9" wide x 13.5" high)

Product Boxed Weight: 13.6kg (30.1 lb)

20FT Container Quantity: 637 Units

40FT Container Quantity: 1323 Units

All performances are tested in a controlled environment, certified by a third party. To learn more about these standards, please speak to your Crystal Mountain representative.
